

FRATER

FRS 236

With Single Parabolic High Purity Aluminum Reflectors

Modular Surface mounted Fluorescent Luminaire

TECHNICAL DATA

Description:

Frater surface mounted Luminaire suitable for 2 nos. 36W/T8 fluorescent lamps and Electromagnetic ballast. The Luminaire is suitable for Surface mounted application.

Application:

Suitable for lighting applications in indoor areas like offices, computer rooms, schools, hospitals and commercial areas like shops etc.

Features:

Modular construction
Conforms EN 60598
Easy to install & maintain
Switch start circuit
Internal wiring heat Resistant (105°C)
single strand copper wire.

Optical attachments:

Polished high purity aluminum reflectors with serrated cross blades.

Options :

HPF capacitors, Electronic starters, HF circuits, RFI capacitors, Emergency pack for 3 hrs duration, other voltages and freq.

Material & Finish :

Housing: CRCA sheet steel powder coated white, both inside and outside.

Louvres : Polished high purity aluminum reflective mirrors with matt finish, stepped cross blades. The reflector system can be hinged by anticorrosive wishbone springs.

Ballast : **Frater** ballast, Low energy loss, noiseless operation, low operating temperatures, minimum temperature rise.

Lamp & Starter holders : Flame-retardant polycarbonate.

Wiring : PVC insulated single strand heat resistant wire.

Dimensional Data :

Type	Lamp rating	Dimensions (mm)		
		L	W	H
FRS 236	2x36W/40W	1218	296	90
