

# POWERS & CONTROL PANELS

## CONTROL PANELS

**We are manufacturing different types of control panels like:-**

- 1- Direct on line panels.
- 2- Hand off out automatic panels.
- 3- Star Delta.
- 4- Forward – reverse control panels.
- 5- Starting depend on time.
- 6- Lighting with photocell control panels.
- 7- Soft starting control panel.
- 8- PLC control panels.
- 9- ATS panels

Molded from 1.00, 1.50, or 2.00 mm cold rolled steel for the base and cover. With electrostatic powder flint gray coating, this industrial design makes these models very efficient. With nine available types, our control panels design meets the needed requirements. All items are made with distinct finishing, and supplies with high quality accessories.
