

POWER PANELS

DESCRIPTION

Molded from 1.00, 1.50, or 2.00 mm cold rolled steel for the base and cover coated with electrostatic powder flint gray coating, we are manufacturing power distribution boards with different main circuit breakers such as 100A, 300 A, 1000 A , and 3200 A.

This panel consists of: -

CIRCUIT BREAKERS

- 1- Single or three phase.
- 2-MCB or MCCB all or any brands (Cutler Hammer, ABB,).
- 3- High or low interrupting capacities.

BUSS BARS

- 1- Main buss bar related to the main circuit breaker.
- 2- Secondary buss bar related to the secondary circuit breaker.
- 3- Colored buss bars.
- 4- Isolated by PVC.

METERS

- 1- KWH meter.
- 2- Ampere meter with current transformer.
- 3- Voltmeter with cam switch
- 4- Hertz meter.
